Volume 11. THE REDCLIFF REVIEW, THURSDAY, MAY 19, 1921. Number 20.

REGISTRATION FOR ELECTION STARTS MONDAY

All Who Want to Vote on Approaching Bye-Election Must Register Their Names Next Week—Registrar Will be at Review Office for the Purpose.

According to the Election Act all those who desire to vote in any Dominion general or byeelection must register their names with a registrar appointed for the purpose. The qualifications necessary to have one's name registered are that he or she be a British subject of the full age of 21 years, has ordinarily resided in Canada for at least twelve months and within the electoral district wherein such person seeks to vote for at least two months.

As there will be a bye-election in this federal constituency on the 27th of next month arrangements have been made to register all the qualified voters so as to prepare the voters' lists for the occasion.

For the Town of Redcliff, E. L. Stone has been appointed registrar. The district over which he has control and from which he will accept names, comprises all that portion of Township 13, Range 5, west of the South Saskatchewan river, except sections 5, 6 and 9, and all that portion of Township 13, Range 6, lying north and west of South Saskatchewan river, except sections 1 and 2, west of the 4th meridian

The registrar will be at the Review Office, Redcliff, between the hours of nine o'clock a.m. and nine o'clock p.m. every day from May 22rd to May 28th, both inclusive, to receive the names of all those who desire to be registered. It should be borne in mind that every person should apply in person to have their names registered. Provision is made, however, that any qualified voter may apply to have any member of his or her family who is not able to apply in person, placed on the list.

All women with the necessary qualifications are also entitled to vote, but in order to do so they must register the same as the men. Don't overlook the registering, as only those whose names are on the list can vote. It doesn't matter whether you have registered before or not, you must register again for the coming election.

British Coal Strike Is Still Unsettled

Latest reports concerning the coal strike situation in Britain are to the effect that Prime Minister Lloyd Georges' separate unofficial conferences with coal owners and miners have led to nothing definite so far and even the names of those who interviewed the premier have not been divulged. It is stated, however, that progress has been made toward clearing the way for an acknowledg d conference between the mine owners and the men. The premier is determined that open negotiations will only be renewed when the way is reasonably clear to settlement.

Fair in Medicine Hat Next Month

Arrangements are well advanced for Medicine Hat's big exhibition on June 27, 28 and 29. The prize list for live stock and poultry is approximately $7,000, and in addition there will be prizes for dairy products, mechanics, ladies' department, including fancy work, bread and cooking, and a good list for the boys' and girls' department, which will be of much interest to the school children of the district. The prize list is in the printer's hands, and applications for prize lists should be sent to Mr. C. A. Richardson, secretary of the Agricultural Society, Medicine Hat.

The Provincial Department of Agriculture, in its second semi-monthly crop and live stock report, states that favorable seeding conditions before and at the beginning of the month have been bettered by a continuance of favorable weather. Wheat seeding has advanced rapidly and is practically completed over the province. There is plenty of rain in Southern Alberta. Central Alberta is increasing its wheat crop and the Peace River country is well advanced, particularly in the Grande Prairie district.

Redcliff Wins First Home League Game

Winning out by a score of four goals to nothing the Redcliff football club made a good start in its first home game in the league series, which was played here against the Medicine Hat Callies last Thursday evening. As the ground was in excellent condition and the weather favorable, the crowd was treated to one of the best exhibitions of the game ever put up by a Redcliff team. The local line up was well placed, each man playing his position almost to perfection. This was especially noticeable in the first half, when all four goals were scored. In this half the play was decidedly in Redcliff's favor, and considering the continuous attacks on the visitors' goal the wonder is that the score was not larger.

Almost before the visitors had time to get acquainted with their surroundings, Green succeeded in locating the net and scoring the first goal for Redcliff. This was followed by a series of attacks until finally the Callies' goalie cleared and shot he ball out to centre. Simmons was Johnny on the spot to receive it, and without waiting for ceremonies made a nice long shot, landing fairly in the net. From this on the play was more evenly divided, but after eight minutes Phillips scored again for Redcliff on a nice piece of combination work, in which every player on the forward line took part in the argument. Just before the whistle blew for half time Green scored again for Redcliff, making the score for the first period four to none in favor of the home team.

In the second halalf with the ground and what little wind there was in their favor, the visitors started out with a desperate effort to equalize the score, but somehow Learmonth and Monaghan always appeared on the scene in their way to interfere with their plans. Once or twice they had to call on the assistance of Jones, the local goal tender, but outside of that the situation was never dangerous. Not had the locals given up hope of adding to their tally. They were still going strong and making periodical attacks, but Schutte between the sticks was getting everything that was coming his way. In this half he made several sensational stops and cleared what looked like sure winners. The play throughout this half was more evenly divided, but ended with neither side having scored.

An unfortunate accident happened in this period, as a result of which Phillips, one of the local players, dislocated his left arm at the elbow. The incident was quite accidental, and we are pleased to be able to report that the accident is not as serious as was at first thought.

The following was the line up of the two teams:

Redcliff—Jones, J, Learmonth, Monaghan, Lakey, Simmons, Smith, Duggan, Maskell, Green, Phillips, Dutton.

Callies —Schutte, Goldie, Grisdale, Morrison, Brown, Gilbert, Hopkins, Walktr, Ferrier, Woodhouse.

Referee S. E. Whiteside.

An enthusiastic fan hands in the following notes of the game:

Someone should call the committee's attntion to the time that games are started.

What's the use of having a rule for the game to be called at 6.15 p.m. if they do not kick off until 7 p.m.

Someone told me that Jamie says he will not referee another Redcliff match.

Gone, but not missed.

Excuse my tears and lend me your hankie,

The Reds were in fine fettle against the Callies.

Stumps were drawn at 8:15 p.m.

Whiteside was referee and was a little nervous, in fact he was pale right down to his socks.

Our sincere sympathy goes out to Phillips, but we all know how Redcliff people will show their sympathy (practical).

What do you think of our rooters? Especially the ladies.

They were there in sky-blue, sea-green, perfection pink, and other shades of jumpers, but hat was nothing to the lady jumpers whenever a goal was scored.

You gotta hand it to 'em, they can root alright.

LEAGUE STANDING

	Goals						
	P.	W.	L.	D.	F.	A.	P.
Vets	2	2	0	0	8	1	4
Redcliff	2	1	0	1	7	3	3
Independents	3	1	1	1	5	5	3
Callies	3	0	3	0	2	8	0

HON. T. A. CRERAR SAYS GET WILD LANDS LISTED

Leader of National Progressive Party Endorses Principle of Legislation Requested by Western Canada Colonization Association and Its Multitude of Supporters Throughout Manitoba, Saskatchewan and Alberta.

Hon. T. A. Crerar's statement reads: "The proposal of the Western Canada Colonization Association that an inventory of unoccupied land be taken under government auspices in the prairie provinces, and that the owners of such land should be obliged to fix a price at which they would sell to incoming settlers is, I think, an excellent one. The fact that the price so fixed would be made the value for assessment of the special Wild Lands Tax would keep the owner of the land down to a price that was reasonably fair. Land speculation, and for that matetr speculation in other natural resources, has been one of the worst evils this country has suffered from.

It is generally agreed that Canada needs more people but an immigration policy can only have permanent success if the people who are already here are relieved of the artificial handicaps under which they have labored in the past, of which these speculations in land is one. The more people that come into the country the higher the land speculator raises the price. In the best interests therefore of the people of Canada the proposal that land held out of use should be made available for those who want to use it is sound and deserves the support of all good Canadian citizens. This step is in line with what the organized farmers of Canada have advocated for many years."

Benefit Football Game Here Next Tuesday

Arrangements have been made to have a benefit football game here next Tuesday afternoon, Victoria Day. The game will be played between the pick of the three teams in Medicine Hat and the regular Redcliff line-up. This promises to be one of the best games of the season, and as the proceeds of the game as for the benefit of Phillips, the local player who was hurt in the last league game, there should be a big crowd in attendance.

Another benefit game will be played in Medicine Hat on May 26, between English and Scotch players picked from all the teams in the league Redcliff will be represented on both teams. Proceeds from this game are for the benefit of Gallacher of the Callies.

HERE'S A CHANCE
FOR SOCCER PLAYERS

W. Burgess, secretary of the Medicine Hat-Redcliff football league, has received a request from the secretary of the Alberta Football Association, that this league submit the names of two players, the object of which is to pick a team to represent Canada against the Scotch team which is now touring Canada. The game for whose this team will be chosen will be played in Montreal in July next.

BOY SCOUT NEWS

Quite a few boys were absent from the meeting last Thursday because of the football match.

For a while the Patrol Leaders tested the boys of their respective patrols on first-aid work. Almost all the boys passed the tests successfully.

After the first aid work was over a few minutes were spent in signalling.

Because of the stormy appearance of the weather last Saturday it was thought better to put off the Scout hike until next Saturday, if the weather is fine by then.

Last Tuesday the boys of the bugle band assembled at the scout hall for a practice. Mr. Osgood, the bandmaster announced that there will be a scout parade on Victoria Day, and that the scout band would have to attend, so they would have to do some extra practicing. It was decided to meet on Wednesday for another practice.

After about half an hour of practicing on Wednesday night, Mr. Osgood ordered the boys to form up in marching order and march down to the Ross Clay Products. The boys showed that they could easily play on the march.

The members of the Scout Band are reminded that there will be another practice on Friday night.

Boy Scouts Will Parade May 24th

At the regular meeting of the Boy Scout Executive held last Thursday, it was decided to have a full strength parade of the scouts on the morning of Victoria Day, May 24th.

According to present arrangements it is the intention to have the scouts meet at the club rooms at 9.30 in the morning. Here a procession will be formed, headed by the bugle band, the boys will march to the football grounds, where an exhibition of the work they have accomplished so far will be given.

As Monday, Victoria Day, will be a holiday and all places of business are closed for the day, parents and all interested in the Scout movement are asked to join in the procession and accompany the boys to the grounds.

The program will be completed by noon so that here should be no excuse for not turning out and giving the boys every encouragement in their work. We can assure all that a pleasant surprise is in store for them and that he hour spent with the boys will be etherougly enjoyed.

W. E. Hay Addressed Local Association

Although the turnout at the meeting Wednesday evening under the auspices of the Parent-Teachers' Association was not as large as it should have been, those were present were most enthusiastic and thoroughly enjoyed the evening's programme.

Several musical numbers were rendered before Mr. W. E. Hay, of Medicine Hat, the speaker of the evening, was introduced. Taking as his subject, "The School's Need of Help from the Community in Educational Work," the speaker went on to show that there was greater need now than ever for this help, since additional responsibilities were being forced upon the schools by society, the home and the church. The result is that today the school must assume activities in several directions which were now looked upon as part of the child's education. Owing to the inadequacy of the school to handle these additional responsibilities successfully it has become necessary to look around for assistance. Hence the formation of the Parent-Teachers' Association, which is an outgrowth of this reaching out for help. He thought every parent should belong to this association and should co-operate with the teachers and trustees in an endeavor to get the most possible results for the monies expended for educational purposes. The health, morals and play of the children should receive due consideration, and in this connection the parents could be a wonderful help to the teachers.

On motion of F. Oliver and Rev. T. S. Patch, a vote of thanks was tendered to Mr. Hay for educative and instructive address. During the evening encouraging remarks were also made by Rev. F. C. Graham, A. N. Collicut, P. Lavelle and E. L. Stone.

MAHARG TO ENTER
SASKATCHEWAN GOVT.

J. A. Maharg was nominated for the riding of Morse by the supporters of the Martin government.

Conditions Ideal For Seeding Work

Farmers of this district assure us that weather conditions have been ideal for seeding operations, and they say the land has never been in better shape at this time of year. Early sown grain is now up and is in a healthy condition. The dull weather last week has given it a good root run and put it in shape for the warm weather which now appears to be in sight.

It is estimated that at least 90 per cent. of the wheat in this district is now sown, and everything in good shape to proceed with the later grains.

Grading Country Roads In This District

Government gangs are now at work on an extensive program of road work in this district. Mr. Bishop, who is in charge of the work, informs us that according to present plans all main roads leading into Redcliff are to receive some attention and put in first class condition.

Commencing at the C.P.R. station here that road is to be graded for two miles north and two miles east to connect with the present ox Springs grade. West of town grading will commence at the Landis corner and be continued north to the C.N.R. right of way. From the same point the grade will be continued west for about 11 miles, or to join up with King municipality. This will make a direct road to Romaine and Vauxhall. From the town limits the road will also be graded to Brezeelawn district.

Men are now engaged on this work and will continue till the above program is completed. We are advised that our representative, Hon. C. S. Pingle, has had this work under consideration for some time, but has been considerably delayed on account of not being able to get the necessary equipment sooner.

Liberal Convention Called For Friday

A convention of the Liberal Association for the federal constituency of Medicine Hat is being called to take place in Medicine Hat on Friday afternoon of this week.

The object of the convention is to discuss the advisability of placing a candidate in the field for the approaching bye election, which will likely be held some time next month.

All supporters of the Liberal party and its platform are invited to attend this convention.

After Grasshoppers Now in Manitoba

The plans agreed upon at the recent conference of agricultural experts in Manitoba for the extermination of grasshoppers have been completed and the death knell of the hopper has been sounded. Eighty thousand pounds of arsenic will be shipped from Winnipeg for 15 towns in southwestern Manitoba which have been selected as the strategic points from which to wage war on the pest. Supplies for the other municipalities which go with the arsenic to make up the killing mixture, have already been forwarded.

Redcliff at Top of Football League

As we are a little late in getting to press this week we are able to announce the result of the Vets-Redcliff league football match played last evening. Redcliff won out by a score of 1 to 0. In the opinion of all who saw it, it was without doubt the best game played in this league for some time. The game was hotly contested for every foot of the way from start to finish, and there is no doubt that the final result is a fair indication of the comparative strength of the two teams. The winning of this game places Redcliff at he top of the league for the time being. A full report of the game will appear in our next issue.

United States wheat producers of the border country and especially throughout the northwest states, are keenly disappointed over a ruling just announced by Secretary of Agriculture Wallace, refusing to change the federal grades on spring wheat, except in one small particular. The decision is regarded as a victory for millers.

COL. SPENCER IS THE CHOICE OF CONVENTION

Supporters of Government From All Parts of Riding Present—Choice Was Unanimous — Candidate Expects to Win

Col. Nelson Spencer, member for Medicine Hat in the provincial legislature, was unanimously chosen as candidate for the federal by-election, at the convention of government supporters held in Medicine Hat last Friday. About 150 delegates were in attendance, 52 of whom were from the country districts. Accepting the nomination, Col. Spencer said that he would go into the fight with more spirit than in any other political campaign because he believed the issues were greater.

"I have a hunch, a strong one, that we are going to win," he said. The U.F.A. had made a mistake in putting a candidate in the field, he believed. There were things which the constituency could demand of the government and which the government should give. And if elected he would demand of the government everything in reason. A great Canada could not be built on the policy of the Farmers' Progressive Party and Canada should stay with a government that had made good. And nothing would have more effect on the general election and on Canada's political life than to elect a government supporter here.

Major Macdoudl said there was no inducement for sane Canadians to vote for a Farmer candidate. The constituency wanted a representative who could bring some benefit to it. No man from this constituency had done better work in the war than Col. Spencer, whereas, Mr. Taylor, the Farmers' candidate, although single and of military age, had not gone to war.

B. H. Dial of Over and Major McIntosh of Irvine, claimed that many farmers would not support the Farmer candidate. Foreign settlers especially were anxious to have stability in government continued. H. H Brown spoke highly of Col. Spencers' work in getting relief for farmers in recent years of crop failure and expressed the belief that he would be elected.

Col. Spencer's nomination was made seconded by Thomas Godfrey of Winnifred.

Resolutions were passed asking for speedy construction of the C.P.R. line from Leader to Pashley and the C.N.R. branches from Hanna to Medicine Hat and from Montario to Acadia Valley. Another resolution expressed regret concerning the inadequacy of pensions granted to incapacitated soldiers and to the dependents of soldiers who had died on active service.

Date Is Set For Dominion Bye-Election

Writs are now issued setting the date for the Dominion bye-election in the constituency of Medicine Hat, of which the provincial constituency of Redcliff is a part.

According to the writ, nomination day has been set for Monday, June 13, and election day two weeks later, or on June 27th.

The holding of this election was made necessary by the death of our late representative, Hon. A. L. Sifton. Up to the present two candidates are in the field. These are Mr. Gardner, of Oyen, who is running in the interest of the farmers, and Col. Nelson Spencer, of Medicine Hat, a supporter of the present government. A convention in the interests of the Liberal party is being held tomorrow, but according to reports they are not likely to put a candidate in the field.

TO DEVELOP GOLD
MINES IN NORTH

An entire car load of mod rn granite mining machinery has reached Edmonton for the Aurous Gold Mining Company of Great Slave Lake. The plant is valued at $10,000 and will go forward to Fort McMurray, where scows have been constructed to float it to its destination. A complete oil well drilling outfit is being sent forward by the same company for their claims on Great Slave Lake. The plant is out of the company is bringing twelve miners with him from Seattle.

THE REDCLIFF REVIEW

W. H. HATCHER - - - Proprietor and Business Manager
ED. L. STONE - - - - - - - - - - - - Editor

SUBSCRIPTION RATES

In Canada and Britain $2.00
United States $2.50

Issued on Thursday of each week at Redcliff, Alberta.
Advertising Rates Furnished on Application.

THURSDAY, MAY 19, 1921.

SHOULD ENCOURAGE SOCCER.

At the present time Redcliff has what promises to be one of the best, if not the best, football teams in the league this year. So far they have made an excellent showing and all the players are taking a keener interest than ever in their practices and other work in connection with the running of a successful club. We also have a live set of officers who are doing everything possible to bring the team to the front. They are untiring in their efforts to make everything as comfortable and convenient as possible for the players and are looking after their interests so far as conditions, financial and otherwise, will warrant. This being the case it is up to the general public to give them every encouragement and support.

In the past Redcliff has experienced some difficulty in keeping a team together for the entire season, and for this reason results have been very discouraging and disappointing. We are starting out this season with a very promising lineup, and the games played so far show that the boys are working together and putting up an excellent exhibition of team work. For this reason and for the additional reason that soccer is rapidly gaining in popularity in this district, we should all go the limit in helping to encourage the players and officers in every possible way.

Some line of athletic sport is necessary in every community. Soccer is getting away to a good start. Let us set out to land the trophy in Redcliff this season, and then comes the opportunity to play off for the provincial championship.

OUR STAND ON ELECTION.

The date has at last been set for the much talked of bye-election in the federal constituency of Medicine Hat of which this is a part. Monday, June 27th, is the date, and already organiaztion work for the different parties interested is well under way.

With the election only five weeks away it means that the campaign will be comparatively short, and the indications are that it will be a lively one as well.

At the present time two candidates are in the field, one representing the government and one representing the farmers' organization. As yet there is nothing definitely known as to what the Liberals will do at their convention tomorrow, but there is a possibility that they also will have a man in the field. This being the case it is the present intention of the Review to maintain a neutral stand throughout the campaign, unless any exigency at present unforseen should arise during the contest. This does not mean, however, that the columns of the Review will not be open for the discussion of public questions to any and all parties concerned. Our columns will certainly be open for that purpose, but they will be open to all on the same footing. That is they may be secured at our election advertising rates, and that those securing them are to supply the copy for same.

PRAIRIE PREMIERS' CONFERENCE.

Premier T. C. Norris of Manitoba has been requested to call a conference of the three prairie province Premiers to discuss and agree upon a plan for dealing with the unoccupied land problem in Western Canada.

It is generally agreed by the busines and farming interests of the country that uniform provincial legislation is necessary to effectively assist the various colonization agencies in settling the idle lands close to railways and now held out of production.

A firm listing of unocupied lands at fixed prices for a reasonable period was the main proposal contained in a memorial to the Western Governments by General A. D. McRae, Managing Director of the Westerdn Canada Colonization Association, a few days ago. His suggestion for enabling legislation has met with universal support in each of the three prairie provinces. The view is strongly held that the creation of a Land Board under the Minister of Agriculture in each Province, which would take listings of the unoccupied lands in Western Canada and thus provide a medium through which all colonization agencies could operate, would be of incalculable value in assisting settlement of the vacant areas in Western Canada. The enabling legislation thus proposed in General McRae's memorial has consequently met with almost universal support in each of the prairie provinces.

It is proposed that the conference will not only consider the needs of the incoming settler but as well the conditions surrounding agriculturists now on the land. The opinion has been expressed by General McRae that one old settler is worth several new ones, and the problem of those now in the country should be fully considered at the forthcoming premiers' conference. Speaking in the Manitoba Legislature a few days ago Attorney General T. H. Johnson said that the Manitoba Government was greatly impressed with the useful results that are likely to attend the conference in question.

We would remind our readers that all who wish to vote in the forthcoming bye-election must register their names with the registrar appointed for the occasion. In another column of this issue the qualifications for a voter and the place where names may be registered are clearly set out. We would advise all to look it up and familiarize themselves with the conditions. The responsibility of registering rests with the people themselves. You cannot vote unless your name is on the list. Therefore if you are a qualified voter and your name is not on the list on election day you will have no one to blame but yourself.

Big Circus Coming to Medicine Hat

"The public wants something new under the big top," said Colonel Seth B. Howe, one of the owners of the new merged circuses—Howe's Great London Circus and Van Amburg's Trained Wild Animals—"and we're going to give it to them in heaping measure."

Colonel Howe stood watching the loading of the four new all steel trains of his show—trains outward bound on the first lap of the most comprehensive itinerary ever undertaken by a big circus, for the Howe-Van Amburg organization will play every large city in the United States and Canada before the snow flies. Its date in Medicine Hat is Thursday, May 26, and already agents have made preparations for the accommodation of the long trains of seventy foot cars on the railroad sidings.

The new show, or rather the new combination, for both the Howe Great London Circus and Van Amburg's Trained Wild Animals are well known in England, Canada and the States, will present its performances in three rings and two steel arenas, on two stages and in an aerial maze, to say nothing of its hippodrome track, in its quest for new effects, the managements has arranged its program so that its big circus displays, with three hundred and eighty-four human stars, will have for a backg round the aerial Van Amburg wild animals act, exhibiting in the steel arenas.

The Manitoba Linseed and Fibre Company at Stony Mountain, Man., are purchasing several tractors and will break about 3,000 of land this season, to be put into flax.

IMPLICIT FAITH IN ABILITY OF C. P. R. TO MEET DEMANDS

Head of Railway Expects U. S. Readjustment of Wages and Rates to React On Canada.

At the annual meeting of the C.P.R. Mr. E. W. Beatty, President of the Company, made the following interesting statement regarding the affairs of the Company:

"The operations of the Company during the year, the Annual Report for which is now submitted for your approval, have been conducted under conditions which were so exceptional as to costs, as to make it unique in the Company's history, as well as in the transportation annals of Canada. The shareholders are aware of the general conditions which so strongly influenced the results for the year in question but I doubt if a full appreciation of them is possible save with a very intimate knowledge of the details, the aggregate of which is so vividly reflected upon the Company's revenues. The cost of labor, materials and fuel reached their peak during the year and extraordinary added costs, such as high exchange and taxes, added their quota to the expenses.

"The back pay which accrued before the increased freight and passenger rates became effective amounted to a little less than seven million dollars, and the additional amount required to pay extraordinary coal and other purchases, to four million dollars. The total, including provision for income taxes, involved additional costs of approximately thirteen million, five hundred thousand dollars which were charged to the expenses of the year. All these extraordinary and abnormal expenses the Company was able to absorb and pay its fixed charges and usual dividends. This result was only possible because of the excellent character of the Company's facilities provided by you in previous years at large capital expense and the possession by it of equipment used with the greatest economy and efficiency, which enabled the heavy fall movement of traffic to be effected with a despatch which has, rarely, I think, been equalled. I cannot speak too highly of the loyal and effective work done by the officers and men of the Company, without whose efforts such favorable results could not have been secured.

"While the condition of the Company's property has never been permitted to deteriorate, due to the provision made for its upkeep to a high standard in pre war years, there were expenditures which had to be incurred in 1920 which, except for the intensive use of equipment and the shortage of labor and materials during the War, would either not have been included in the expenses for that year in their entirety or would not have had to be incurred at all. The Company's equipment was put to a great strain from 1914 to the end of 1919, and both freight and passenger business—including troop and coolie movements—was so extensive that the usual shopping programme had to be reduced because every unit was required in actual service. When these movements ceased, repairs to equipment and renewals, of course, became extensive and, while I should have preferred that the work could have been postponed until price conditions were more favorable, it was necessary, unless the Company were to suffer in prestige, that the work should be gone on with as soon as possible.

"About the middle of December a pronounced contraction in business took place, resulting in diminished traffic of all descriptions. This depression still continues, but by rigid economies the net results for the first three months of 1921 are not somewhat in excess of those of the corresponding period of last year notwithstanding the greatly increased costs of labor prevailing in 1921.

"As you are aware, the parity of conditions which has existed in United States and Canada resulted in the forced adoption in Canada of what is known as the "McAdoo Award" and amendments and of the award of the United States Labor Board made in August, 1920. Increases in wages may have been justified at that time by the abnormal increase in the cost of living, but they were accompanied by alterations in working conditions of such a character as to impose heavy and, in the view of the companies, unnecessary burdens on the transportation agencies of North America. The combined effect of these has been to greatly increase the abnormal operations of all companies. The conditions which rendered these necessary being rapidly eliminated, it is apparent that readjustments will be essential. The effort to secure reductions in wages and alterations in working conditions has already been commenced in the United States and is proceeding in a sane, orderly and legal manner. What is accomplished there will undoubtedly reflect on the rates of pay and working conditions in Canada. These increases in wage scales, while not the only element which entered into the increase in freight and passenger rates, were still a very outstanding and potent factor and when the readjustment of wages takes place it is only right that the rate situation should be again re-considered with a view to revision downward. The rates are high but I am not one of those who believe that the existing scale of wages and consequent high freights is responsible for the present business depression; the causes of that go much deeper than the mere standard of wages paid to any given class and are world wide. While reduction in wages does carry with it a reduced purchasing power in the individual, such reduced purchasing power is not represented by the difference in the scales of wages because of the general decrease in prices of the commodities to be purchased. Nevertheless, a reduction in both wages and freight rates would have a pronounced and beneficial effect on the general sentiment in the country through the encouragement it would give and the confidence that normal conditions had been more nearly reached.

E. W. Beatty, President of the C.P.R.

"The general trade depression has, of course, reflected itself in the results during the present year's operations of the Company's steamships but the passenger business is well maintained and the prospects of immigration on a large scale are very promising. The construction of the new steamers for the Atlantic and Pacific, to which reference is made in the Annual Report, has been very seriously delayed by the Joiners' Strike in Great Britain, which is still apparently far from settlement and which will defer the delivery of these steamers until at least the end of the present year. These ships are of a class that would render great service during the Summer and Autumn of this year and the fact that they will not be available is to be regretted. As both the direct and indirect benefits of a continuance of an adequate service are very great it may be desirable to purchase other ships, if these can be obtained at moderate prices.

"As indicated in the Annual Report, your finances are in excellent shape. While the balance in the Bank is not, of course, as large as it was at the end of the last fiscal year, the amount is nevertheless a very substantial one, and there is still unissued or undisposed of over Sixty-seven Million Dollars of Consolidated Debenture Stock the issuance of which has been heretofore authorized or that you will be asked to sanction at this meeting. Even in the trying times during and immediately succeeding the War the progression of the Company has been steady and sure and the Assets Statement shows an increase since 1914 of an amount in excess of One Hundred and Seventy Million Dollars.

"Your Directors have recently accepted a proposal for the acquisition by London, England, interests of a substantial amount of Four Per Cent Consolidated Debenture Stock at a price which was very favorable. This is the first application for the acquisition of Debenture Stock from England since the outbreak of hostilities in 1914, and, in the opinion of your Directors, is an incident of the utmost significance as indicating the resumption of interest in your principal Capital security in Great Britain. It may conceivably be the first step towards the re-establishment of a market in England for the ranking securities of the Company which cannot but have an important influence on its future financing.

"As explained in the Annual Report, you will be asked at the special general meeting to be held immediately after this meeting to approve the issuance of Bonds, Debentures or other securities collateral to Consolidated Debenture Stock which the Company is or may hereafter be empowered to issue and to the same amount, such securities to be payable in such currency and at such times and places and bearing such interest as your Directors may think proper.

"While it is not easy to designate in advance the exact purposes for which money may be from time to time required, it is thought by your Directors that your approval should be asked to the creation and issue of such securities as will enable them as conditions warrant to provide money for extensions and new steamers and also restore the cash reserves of the Company, substantial amounts of which have, during the last few years, been expended on Capital Account.

"The Company's enterprise is now so extensive that in providing for normal and proper expansion large sums of money are quickly absorbed. You will, I feel sure, recognize the desirability of having your financial arrangements in such shape that your Directors can, without avoidable delay, secure funds for your purposes at intervals as circumstances may justify or require and to that end will invest them with the proposed powers.

"With a period of rigid economy and retrenchment has not yet passed, your Directors do not look forward to an indefinite continuance of the present commercial depression. Certain basic elements in cost have yet to be reduced but the stimulus of restored confidence and commercial activity is not, I think, in the distant future. When it is reached and traffic approaching normal is resumed, the full effect will be felt on the Company's operation. Organization and consequent financial embarrassment have caused in many localities a pessimism which is not warranted by the fundamental soundness of Canadian conditions and its almost unlimited natural wealth.

"I have the most implicit faith in the ability of the Company to satisfy all the public demands which may be made upon it and to invest with credit to itself and advantage to your interests the steadily advancing commercial and transportation require-ments of Canada."

U. S. Passes Bill to Regulate Grain Futures

The bill to regulate dealing in grain futures was passed last Friday in the United States house and sent to the senate.

The vote was 269 to 69.

The measure is designed to abolish the practice in grain markets of "puts"and "calls," "ups" and "downs" and "demnities" by levying a tax' of 20 cents a bushel on such transactions. A similar tax is provided on contracts for future delivery, made outside of "contract markets," to be designated by the secretary of agriculture, except when the seller is the actual possessor of the grain.

The bill went through practically in original form and it "will absolutely destroy manipulation," according to Representative Tincher, Republican Kansas, although it does affect what is known to the grain trade as "legitimate."

If this bill becomes law it is reported that the Chicago Board of Trade the world's greatest grain market, will withdraw from business.

Remember the Benefit Football Game here on Victoria Day, Next Tuesday. Game at 3.30.

Combine Armistice Day And Thanksgiving Day

A bill passed by the present session of the federal house provides that the Monday in every week which contains the 11th day of November, shall be celebrated as Armistice Day, and as such shall be kept as a legal holiday, as a commemoration of the day upon which the armistice was signed in the great war. The bill further provides that the holiday commonly called Thanksgiving Day, usually appointed by proclamation in the month of October, shall in future be proclaimed and observed for and on Armistice Day. The bill, which is numbered 119, is to be cited as the Armistice Day Act.

SHELTER-BELTS FOR PRAIRIE FARMS

Several million seeding trees and cuttings are being sent out from the Dominion Forest Nursery Stations at Indian Head and Sutherland, Saskatchewan, this spring, for planting by prairie farmers as shelter-belts about their premises. The trees are sent out free on condition that the farmer prepares the ground for the reception of the little trees and keeps the land cultivated till the trees have grown sufficiently to shade the ground and thus keep down grass and weeds. The species of trees sent out are Manitoba maple, ash, poplar and willow, and the tree-like shrub caragana This work has been going on now for about twenty years with the result that thousands of prairie homes are surrounded and sheltered by belts of trees. Except for the war years the work has shown steady increase from year to year, and the plan has proved so successful that it has been adopted by several of the provinces as by the United States Department of Agriculture.

PLAIN BUSINESS

Advertising is just plain business. In these days of keen competion no business man can neglect to advertise his wares and hope to succeed.

The buying public are looking through the newspapers to see where they can get the most for thier money and if your advertisement does not appear in your home paper they are going to spend their money elsewhere.

The columns of The Review are open to you at reasonable ratesand as it goes into nearly every home in Redcliff where the English language is spoken, you are neglecting your business if you do not take advantage of them.

The Review's subscription price is $2.00 per year

Summer Training For C.G.I.T. Members

The Girls' Work Board of Alberta is conducting this summer three training camps for leaders of girls and teenage girls of fifteen to eighteen who are interested in the Canadian Girls in Training program. These camps are being held as follows:

Leaders' Training Camp at Fallis, July 1-9 (fees, including board and registration, $12.00).

Older Girls' Training Camp at Sylvan Lake, July 13-23.

Older Girls' Training Camp at Fallis July 26-Aug 4.

(Fees, including board and registration, $15.00).

Land and water sports of all kinds are a large feature of the daily schedule, as well as courses in Bible Study and worth-while talks on various subjects of interest to leaders and girls. A better holiday, under more congenial and happy surroundings would be hard to imagine.

Any woman interested in girls and any girls between fifteen and eighteen years of age are eligible to attend, buta commodation in all three camps is limited, those applying first must necessarily receiv eFirst consideration. Also those applying as delegates from Sunday Schools or similar organizations will have a prior claim.

Folders, explaining in detail the Camp Program and purpose will be sent on request from the office of the Girls' Work Board, 302 I.O.O.F. Bldg., Calgary. As registrations close June 15th, requests for folders should come shortly.

Report of Committee to Investigate Wheat Pool in Sask.

The Government of Saskatchewan realized, when the scheme of a wheat pool was brought forward, that eventually it was likely to be called upon to give the scheme some assistance, With commendable prudence it set about to ascertain if the plan is feasible. It therefore appointed Mr. James Stewart and Mr. F. W. Riddell, of the Canadian Wheat Board, to examine the proposal and advise the government.

Messrs. Stewart and Riddell have presented their report to Premier Martin. The most perfect form of a centralized wheat marketing agency they say, can be created only under the control of a national agency. Anything less than complete national control would necessitate a voluntary cooperative effort in place of one bound by the provisions of a legal contract. Federal control, through such an agenaya the Canadian Wheat Board, would give advantages to the producer that could not be secured in similar degree in any other form of centralized control. Drawing attention to the evident fact that success or failure would depend entirely upon the degree of support given by producers, the committee added that a pool with even limited patronage could exercise sufficient regulative influence over trade transactions and practices to reduce to a minimum any disadvantages which the present system may have developed. The committee emphasized their objections to any contractual arrangement. "A binding contract," they declared, "for several years during a transition period, and applying to so complicated a matter as wheat marketing, appears to us to be one of the least desirable to be taken with a view to improving marketing conditions. There is nothing that a producer would do under a contract that he cannot do of his own free will."

The committee were of the opinion that a pooling arrangement should be an attractive proposition to the banks, but that if satisfactory arrangements could not be made with them, the provincial government might assist by guaranteeing the necessary credits.

This report is of nearly as much interest to the farmers of Alberta as it is to those of Saskatchewan. It is the reasoned and authoritative verdict of competent experts upon this intricate problem.

You are cordially invited to attend these services. The church needs you and you need the church.

Coast to Coast Walkers Pass Through Redcliff

Today Redcliff had a Mr. and Mrs. Dill, the transcontinental pedestrians, who are on a walking tour from Halifax to Vancouver, in town for lunch. Both are in excellent spirits and enjoying the best of health, despite the fact that they have been hitting the trail since the first of February last, on which date they left Halifax.

In this cross country walk five teams started out, but at present there are only three in the contest. Up to the present, Mr. and Mrs. Dill are holding the record. They left Halifax fourteen days after Mr. Burkman, and at one time during the winter they were nineteen days behind him. Today, however, they are only three days behind him. The first team to start out was passed by Mr. and Mrs. Dill at Wapella, Man.

Mrs. Dill is the first woman in Canada to attempt this walk and after having an interview with her this morning the writer is convinced she will complete the journey in record time. She appears to be enjoying the outing and the long days in the open air have given her a healthy complexion. Mrs. Dill is a pleasing conversationalist and is most enthusiastic over her prospects of reaching the Pacific coast on record time.

Don't forget the benefit football game next Tuesday, May the 24th. Game takes place at 3.30.

Sales Tax is Cause of Dissatisfaction

In connection with protests against the proposals of the minister of finance, as outlined in the budget, for the imposition of sales taxes, various branches of the local board of trade of Montreal have been busy passing resolutions of dissatisfaction and forwarding them to Sir Henry Drayton.

In addition to the Wholesale Grocers' Guild and the Produce Merchants Association, the Montreal Dry Goods Association also held a meeting today and adopted a resolution supporting the principle of setting out invoices, the amount of sales tax apart from the costs, and directed their secretary to send copies of this resolution to the dry goods sections of the board of trade, Toronto, Winnipeg, Quebec and Halifax, for further consideration and action.

Change in Train Service Effective Sunday May 22nd 1921

J. E. PROCTOR,
District Passenger Agent,
Calgary.

Slackness of Morals Among Young People

"That he get-rich-quick spirit permeating the lives of young people today is but one manifestation of the general slackness of the moral principle that is gripping humanity and destroying its vitality," was one of the assertions made by Archbishop Ian Worrell in his charge to the Anglican Synod opening here this afternoon.

"Parade and pleasure seemed to be all that counted," he declared, remarking further, "the unpaid motors which carry people away from unpaid churches to summer resorts which are too often regarded as escapes from religious discipline, are safety valves for the pent up forces of religious indifference."

ATTENTION!—Whay pay rent? I will sell you a home at less than price of pre-war construction, containing six rooms fully modern, situated on lots 4 and 5, block 50, Redcliff, on monthly payments of $37.50 for ten years. Ensilage Increases Milk Production
To turn losses into profits or to increase profits from the dairy herd, use Silage Feeding. Why?
Because it is the modern method of feeding stock in winter.
Because is supplies the cheapest and most nourishing food yet discovered for Dairy Cattle.
Because, being palatable a cow will produce one third more milk from Ensilage feeding than from any other form of food.
Because with Ensilage feeding the hay and grain ration can be reduced without impairing the quantity or quality of the milk.
Because the land will produce 6 to 7 times the weight of Ensilage crops as compared with hay crops.
We manufacture THE EMPIRE SILO and will be glad to furnish full particulars regarding cost and capacity.
